COCOM Document No. 3685 B

COORDINATING COMMITTEE

MEMORANDUM BY THE FRENCH DELEGATION

4247745

EXPORT TO POLAND OF HYPERFREQUENCY MEASURING EQUIPMENT

The French Delegation have the honour to inform the Committee that the competent French department has been asked to license the export to Poland of a hyperfrequency measuring equipment, to the total value of \$ 5,150, made up of the following:

One 20 cm. generator, Type Dervaux No. 247, to the value of \$ 2,670 (covered by Item 1529 on the embargo list);

Various accessories and parts valued at \$ 2,480, which do not come under the heading of "strategic items".

The generator operates within the range from 1,000 to 2,500 Mhz.

The French authorities hold a document emanating from the Polish authorities, according to which this equipment is intended to be used in the laboratory of the Warsaw Polytechnical School for scientific research and study within the framework of higher technical education.

The French Delegation have the honour to submit this case to the Committee in accordance with the special procedure in force as regards Poland.
